# SUMMARY

## Statutory Authority

- Sections 135.200 to 135.270, RSMo.
- The first Enterprise Zone (EZ) program was established in Missouri in 1982 as a means to allow local governments the option to provide tax abatement to companies locating or expanding in a designated distressed and blighted area known as an “enterprise zone”. A state tax credit was coupled with the EZ as an entitlement based upon jobs and investment. The tax credit had no cap.
- Pursuant to SB 1155 (2004), the EZ tax benefit program was sunset and is being phased out of existence. The established EZ zones in place prior to the sunset were allowed to run their full 25 year course. The same bill replaced the EZ with the Enhanced Enterprise Zone (EEZ) program which allowed the same local tax abatement feature along with a discretionary tax credit program which with an annual cap. In 2013 HB 184 replaced the Enhanced Enterprise Zone program with the Missouri Works program (Zone Works).
- While the initial EZ zones are expiring, the established Enhanced Enterprise Zones will continue with their 25 year life span before their respective expiration dates. The amended statute still provides the authority to local governments to establish zones. Any new zone or existing zone created under EEZ retains the ability to access state tax credits under the “Zone Works” category of the Missouri Works Program, for new business locations and existing business expansions.

## Purpose

To provide tax incentives which promote and facilitate the expansion of new and/or existing businesses in Missouri’s many enterprise zones.

## Program Description

The eligible project must be located in one of Missouri's "enterprise zones." Enterprise zones are specified geographic areas as set forth by statute and certified by the Department of Economic Development (DED). Designations are based on demographic eligibility and approval of a request by the local government. The number of zones that may be certified is limited by law.

Facility eligibility is determined by its primary Standard Industrial Classification (SIC) or North American Industrial Classification System (NAICS) code, and includes manufacturing, warehousing, wholesale distribution, mining, insurance, research and development, recycling operations, computer-related services, and certain office activities.

To receive credits, a facility must create at least two new jobs and make a new investment equal to or in excess of \$100,000 (\$1,000,000 for replacement facilities) in the claimed year as compared to the base year (the year prior to a facility's commencement of operations). The investment credits are based on the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same, excluding inventory.

Credits may be issued for each of ten years after the commencement of operations, unless the life of the enterprise zone expires first. Local property tax abatement, a state income tax exemption, and state income tax credits may be provided as business incentives, based on the following factors:

- new jobs created at the facility;
- enterprise zone residents employed by the facility;
- employees classified as "difficult to employ", or special;
- training for zone residents or employees classified as difficult to employ; and
- the amount of new investment at the qualifying facility.

## **Missouri Economic Impact**

As evidence that the Enterprise Zone program is winding down, the Department of Economic Development issued no tax credits in fiscal year 2018 (for the fourth consecutive year). No new jobs were created or investment reported for the Enterprise Zone program during this fiscal year.

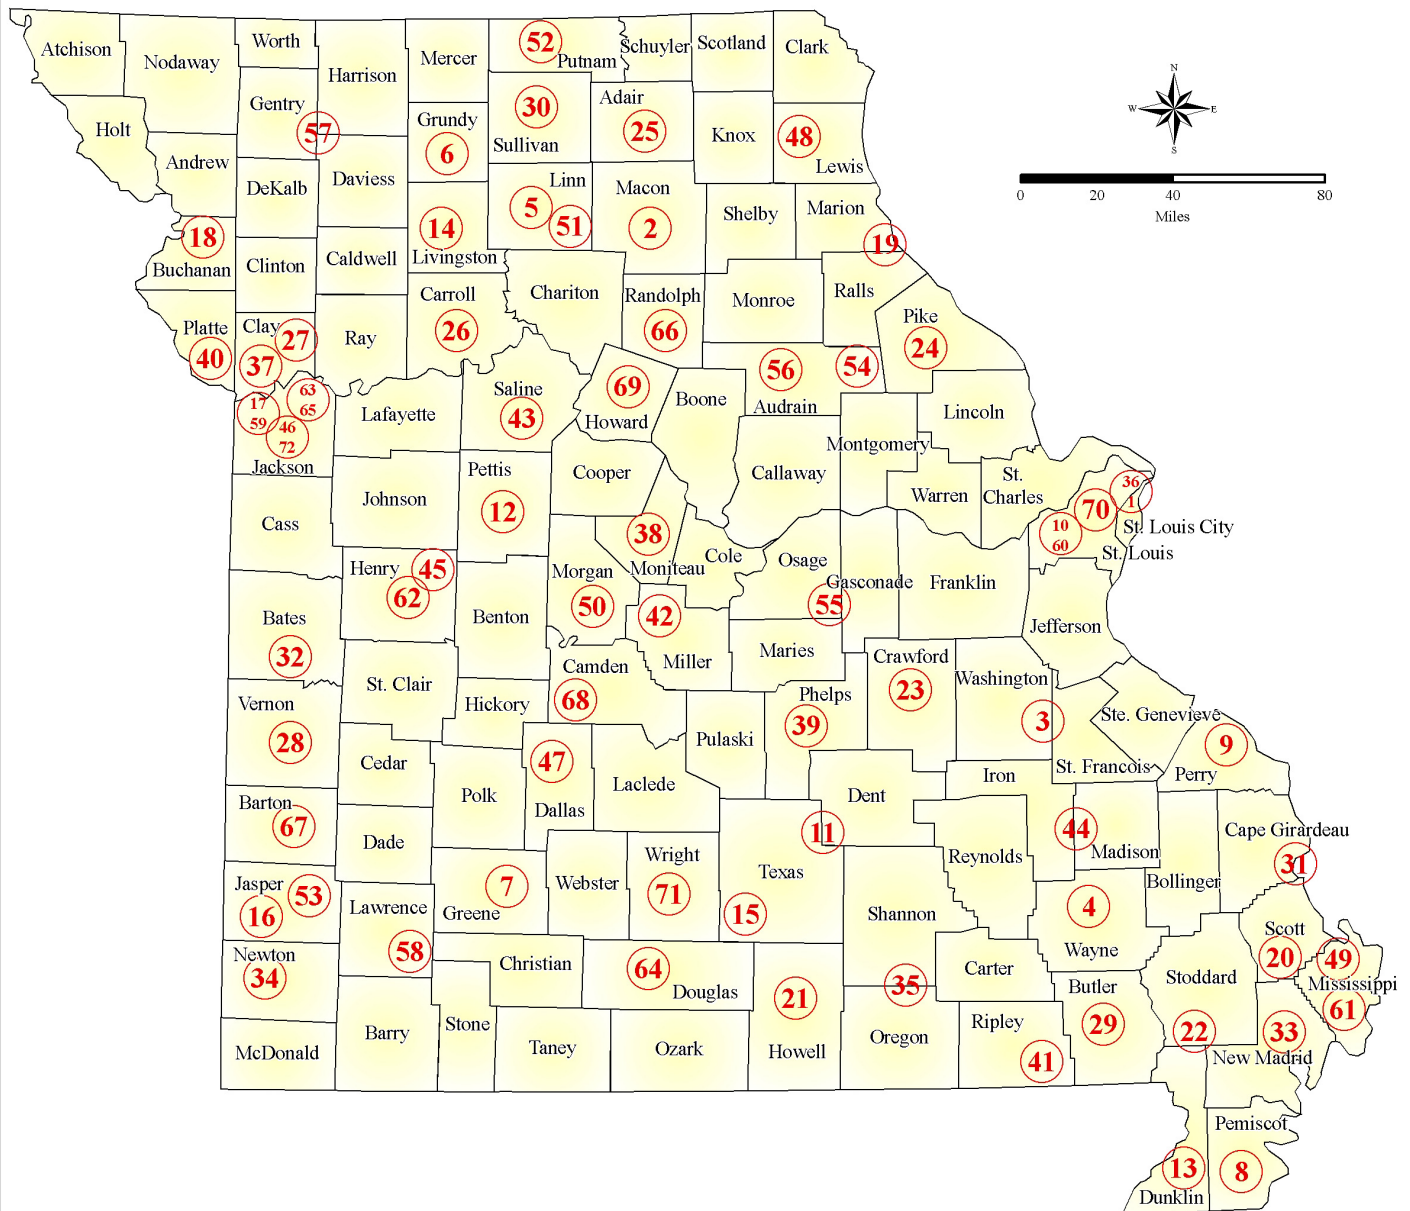

The overall state unemployment rate has decreased over the past year to 3.5 percent at fiscal year-end, down from 3.8 percent in June 2017. This places Missouri's unemployment rate below the fiscal year end national unemployment rate, which was 4.0 percent.

## **Missouri Enterprise Zone Performance**

The number of businesses participating in the program continues to decrease, due primarily to zone and benefit expirations. As of June 30, 2018, only three (3) enterprise zone designations remain unexpired. All zones will expire by December 30, 2019. Because the MO Enterprise Zone program is sunset, the Department expects to see limited or no impact as zones continue to expire.

# MISSOURI ENTERPRISE ZONES

## Locations

## Zones Expired as of 6/30/2018

1. St. Louis Midtown
2. Macon, Macon Co./Callao/Bevier
3. Washington Co./St Francois Co./ Potosi
4. Wayne County/Greenville/Piedmont
5. Brookfield
6. Trenton
7. Springfield
8. Pemiscot
9. Perryville
10. Wellston
11. Dent Co./Texas Co./Salem/Licking/Houston
12. Sedalia
13. Kennett
14. Chillicothe
15. Cabool
16. Joplin Area/Webb City
17. Kansas City
18. St. Joseph/Buchanan Co.
19. Hannibal
20. Sikeston
21. Howell County/West Plains/Willow Springs
22. Dunklin Co./Stoddard Co./Malden/Dexter
23. Cuba/Steelville/Crawford Co.
24. Pike
25. Kirksville
26. Carrollton
27. Excelsior Springs
28. Nevada/Vernon County
29. Poplar Bluff/Butler Co.
30. Milan/Sullivan County
31. Cape Girardeau/Cape Girardeau Co.
32. Butler
